

Creep into the DEEPEND™

JOSE LOPEZ

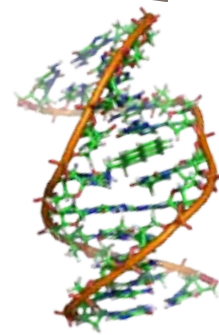

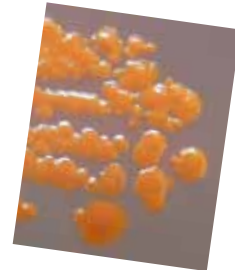

NOVA SOUTHEASTERN UNIVERSITY

STUDIES:

Microbiomes and Genomics

DEEPEND FOCUS:

Molecular evolution, genomics, sponge biology, phylogenetics, marine microbiology and symbiosis (the living together of diverse organisms)

HAS STUDIED:

At the National Cancer Institute; Smithsonian Tropical Research Institute; and Harbor Branch Oceanographic Institute

SOMETHING SURPRISING ABOUT JOSE:

I have been playing ultimate frisbee for more than 20 years.

THREE THINGS JOSE DOES TO HELP THE EARTH:

I drive a fuel efficient vehicle, eat low on the food chain (more veggies and less beef consumption), promote biodiversity awareness
