

# Creep into the DEEPEND™

**NINA PRUZINSKY**  
NOVA SOUTHEASTERN UNIVERSITY

## STUDIES:

Deep-sea fishes, tuna and their relatives

## DEEPEND FOCUS

Identify deep-pelagic fishes. Study larval and juvenile tunas over space and time in the Gulf

## HAS STUDIED:

I worked in an algae lab at the University of Delaware and studied coral reef ecosystems in Little Cayman, Cayman Islands.

## THREE THINGS NINA DOES TO HELP THE EARTH:

I use my own grocery bags and I recycle. I also educate others on deep sea organisms/ecosystems.
