

Creep into the DEEPEND™

ISABEL ROMERO, PhD
UNIVERSITY OF SOUTH FLORIDA

STUDIES:

Geochemical indicators of environmental disturbance

DEEPEND FOCUS:

Measures chemicals in animals to know their contamination levels

HAS STUDIED:

Colombia, Panama and Belize mangrove forests; Santa Barbara Basin salt marshes, California and Nevada lake systems; Gulf of Mexico deep sea.

THREE THINGS ISABEL DOES TO HELP THE EARTH:

Recycle, take shorter showers to save water, buy recycled and natural products when possible
