Celebration of Conservation:
Gray Whales, Elephant Seals, & Vaquita

BARBARA TAYLOR, PhD

SOUTHWEST FISHERIES SCIENCE CENTER, NMFS, NOAA

STUDIES:

Endangered marine mammals.

RESEARCH FOCUS:

Vaquitas – Mexico’s porpoise.

Vaquita painting by Barbara Taylor

HAS STUDIED:

Whales, dolphins, porpoises, and seals throughout the world from living more than a year on the ice north of Alaska to the hottest ocean on earth in Mexico.

SOMETHING SURPRISING ABOUT BARBARA:

I love to paint, kayak and walk my cat on a leash (no bird killing for Poe!)

THREE THINGS BARBARA DOES TO HELP THE EARTH:

I research endangered species every day. I drive an electric car powered by my solar roof!
