

TAKE THE "FINTASTIC FRIDAY PLEDGE"

PLEDGE TO:

- Eat sustainable seafood. If you cannot easily trace the path from the sea to your plate, find another source.
- SPEAK UP to change laws if your country supports or allows the sale of shark fins, the finning fishery (killing sharks for their fins) or other fishing practices that kill sharks without restraint.
- SPEAK UP to change laws if your country does not try to minimize by-catch (getting caught in nets set for other species) or other fishing practices that kill sharks, skates, or rays with little regard.
- Support shark, skate, and ray research and conservation efforts. The more we know the better we can protect them.
- Share your "Fintastic Friday Fin Pledge" photo with your friends, family, classmates, and WhaleTimes [holding your hand on your head like a fin].
