

Creep into the DEEPEND™

RICHARD HARTLAND
NOVA SOUTHEASTERN UNIVERSITY

STUDIES:

Sergestidae shrimp – throughout the entire water column

DEEPEND FOCUS

Changes in shrimp abundances over time and space

HAS STUDIED:

Plant-rhizobium-AMF tripartite interactions and mutualism, domestic songbird coloration changes with exposure to anthropogenically altered habitat.

SOMETHING SURPRISING ABOUT RICHARD:

I have climbed mountains on 5 different continents.

THREE THINGS RICHARD DOES TO HELP THE EARTH:

I recycle everything I can, try to raise awareness of the issues by talking to my friends on social media, and write regularly to my Congressman asking them to help.
