

Creep into the DEEPEND™

# Matthew Woodstock

NOVA SOUTHEASTERN UNIVERSITY

## STUDIES:

Deep-sea parasites and their role in ocean food webs.

## DEEPEND FOCUS:

I study the parasites of mesopelagic fishes and how they are related to the fishs' diet and growth.

## HAS STUDIED:

I have studied the sea turtle nesting habits of South Florida.

## SOMETHING SURPRISING ABOUT MATT:

I played baseball through college and always have ball games on in the background as I work.

## THREE THINGS MATT DOES TO HELP THE EARTH:

I turn off lights when I leave the room, recycle as much as possible, and use refillable water bottles
