Take the 30 Day Challenge: If you said *Never* to any of these, can you make it a *Sometimes* in the next 30 days? If you said *Sometimes*, are there ways to push that to a *Usually*? While it may not be realistic to make all of these *Always*, there is one we must all answer with an *Always*. **Always choose, buy, or eat sustainably caught seafood.** Read how in our *What is Sustainable Seafood*.

Take this survey again in 30 days and see how you did. Then take it again in another 30 days.

Let's save the ocean together.
